

## .NET Master's Program

In-depth .NET training program thoroughly covering the key components necessary to plan, build and roll out Windows, ASP.NET and WCF applications using Microsoft

Visual Studio 2010.

Included in the .NET Master's Program:

- Programming with C# using VS 2010
- ASP.NET Development using VS 2010
- Querying using MS SQL Server 2008 Transact-SQL
- LINQ
- Silverlight 4 using VS 2010
- Developing Windows Communication Foundation Solutions

Curriculum subject to change

The Master's Program uses a custom-blended curriculum based on Microsoft Official Curriculum (MOC) enhanced with exclusive, tailored content, which includes exams, labs, and projects.

### Career Development

Candidates enrolled in The Master's Program receive critical job search and personal marketing counseling to increase their visibility, employability, and career resiliency.

In addition, SetFocus markets Master's Program candidates directly to its network of hiring partners and recruiters facilitating introductions, interviews, and follow up.

For enrollment information contact a Recruiting Specialist at **1-866-91-TRAIN**.

# **.NET VS 2010 Curriculum**
