

Welcome to SetFocus Master's Program!

Once you become a SetFocus student, you will receive a polycom V500 and associated cables. The Polycom **DOES NOT** have wireless capabilities. Below is the ideal and preferred setup for an optimized performance.

PREFERRED SETUP AS SHOWN BELOW

1. Television (Required)
2. Polycom V500 with an AV cable, power cable and Ethernet cable (provided by SetFocus)
3. Router With Ethernet Port (Required)

Please note the maximum distance between all items listed below:

- Max distance between the Television and Polycom is 5 ft.
- Max Distance between Polycom and Power Source is 14 ft.
- Max Distance between Polycom and Router must be LESS THAN 10 ft.

Additional Cables that allow for greater distances may be purchased by the student for personal preferences.
